Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant presented proposed amendments for claim 1 in an attempt to overcome the outstanding prior art rejection. Examiner responded by noting that the proposed amendments do not overcome the prior art of McClasky. Examiner sees McClasky's arm (24,48) as being held from rotation in view of the shape of the member (12L) and interference/friction fit therewith. Regarding the newly added claims 17 and 18 Examiner noted that since the status of the application is after final rejection, these claims will not be considered.
